Abstrakt

Příspěvek se zamýšlí nad některými mezinárodními impulzy, a to jak ve vědecké oblasti (Big Data, VGI, VGE), tak i oblasti propojování vědy a politiky (Digital Earth, Spatial Enabled Society), které mohou koncepčně i realizačně obohatit i tvorbu Geoinfostrategie v ČR.

Abstract

Author of paper reflects on several impulses coming from abroad in both, scientific (Big Data, VGI, VGE), and also in the area of linkage of science and policy (Digital Earth, Spatial Enabled Society) which can enrich Geoinfostrategy creation in the Czech Republic in its conceptual and implementation parts. Author of paper reflects on several impulses coming from abroad in both, scientific (Big Data, VGI, VGE), and also in the area of linkage of science and policy (Digital Earth, Spatial Enabled Society) which can enrich Geoinfostrategy creation in the Czech Republic in its conceptual and implementation parts.
