Instructions for participants (version 7.3.2021 20:00 CET)

We are using the platform: <https://myownconference.com/>

Basic information:

- Up to 2000 attendees can be present at a web conference at the same time.
- support of practically any device (Mac, PC, laptop, iPad, iPhone, Android). All usual web browsers can be used (Google Chrome, Edge, FireFox); Google Chrome is recommended.
- presentation formats: **PDF, PPT, PPTX, PPSX, ODP, PNG, JPG**; movie formats: **MP3, MP4, F4V**; maximum size 100 MB (300 MB for movie files)
- draw over your slides or on a dashboard
- share your screen (we do not recommend this option during a standard presentation, only for workshops)
- record the meeting (can be limited only to a record from a web camera and/or a microphone)
- chat (might be turned off)
- arrange a survey

You need for your attendance:

- speakers
- if you wish to speak, i.e. ask a question in a discussion, you will need a microphone. It is recommended to try your device before the event at MyOwnConference. There is no installation needed, everything works in a web browser.
- you can also write your question during or after the presentation into a chat.
- quality internet connection (minimum is 1 Mbps, but a higher speed is recommended). You can do an online test on [MyOwnConference test](#)

EUROPEAN UNION
European Structural and Investment Funds
Operational Programme Research,
Development and Education

- quite room (eventually tactful co-workers in the same room)
- URL link for a particular workshop. It is provided in the conference programme above.
- more information about using the platform can be found at https://myownconference.com/blog/en/index.php/holding_a_webinar_en

During a workshop:

- The workshop is opened by its chairman who introduces its programme and speaker.
- Follow the presentation given. When a discussion is started you can use button „Ask to speak“ on the left side of the screen to ask a question via you microphone. If you join the conversation, please remember, that ideal maximum number of persons in a discussion is 4.
- You can also use chat to ask a question or write a comment any time during the webinar. Please, do not use the chat during the presentation excessively as it might distract attention of a speaker.
- You can turn the sound off; you can use the full screen mode.
- More recommendations can be found at: https://myownconference.com/blog/en/index.php/memo_en

Any issues should be reported to michal.kacmarik@vsb.cz.

These instructions may be modified or more elaborated.
